MAKING READY FOR APRIL 1.

[BY DIRECT WIRE TO THE TIMES.] ST. PETERSBURG, March 17.-[Exclusive Dispatch.] The Russian army will be ready for active land operations April 1. It is believed war will then be pushed to an early conclusion.

PAVING WAY FOR ARMY.

[BY DIRECT WIRE 4TO THE TIMES.] PING YANG (via Chefoo), March 17. - [Exclusive Dispatch.] The present extensive land movements in Korea are directed toward cutting the communications of Port Arthur and Vladivostok. which is now considered of paramount importance.

High Japanese officers frankly state that there will only be serious fighting on Korean soil if they are forced to it. Everything points to paving the way for the army, which will commence serious work after crossing the Yalu. Russian retreat tactics seem to permit this, making it probable that the first stand will occur on Manchurian soil.

Correspondents proceeding north from Ping Yang have been stopped, and thus the Japanese are the only ones giving out news. They state that the Russians have withrawn to Wiju. Two hundred and fifty Japanese cavalry have crossed the Anju River and supported small columns of infantry.

Opposing scouts were occasionally in sight at long distance, but rarely clashing. Recently, near Pachung, shots were exchanged. The Japanese were outnumbered, and lost one man.

Somewhat to the south of the American mine, the Russians started to fortify two passes, but desisted and withdrew.

There is little doubt, according to Russian sources of information, that results of scouting in this neighborhood are meager and practically worthless, whereas the Japanese have the advantage of facilities of disguise, rendering impossible much investigation. Thus, at Song Chong recently, a numerous party of Russian scouts actually spent the night in the same house with five Japanese troopers, disguised as Koreans, suspecting nothing.

All bodies of Russians now seen are accompanied by Korean and Chinese guides. The former are untrustworthy, because they are so afraid of the Russians that they will give false information to persuade them to depart.

DENYING BELLIGERENT STORY. (BY THE ASSOCIATED PRESS-A.M.)

ST. PETERSBURG, March 17, 6 p.m.—The correspondent of the Associated Press is informed that Russia does not regard Korea as belligerent, and will not do so until there is evidence that Korea is actually making common cause with Japan. Russia now considers the Korean government as being under duress, and that all its acts are void.

Although no confirmation is obtainable of the Associated Press dispatch from Seoul, saying that a Korean official in the Tumen River region had received notice that Russia considered Korea as belligerent and would act accordingly, in Government circles it is considered quite possible that the Russian commander along the Korean border may have warned the Koreans that they must, not impede the Russian military operations, under pain of being considered belligerents.

The military authorities in the Far East have reported here that there is absolutely no truth in the story that Russian troops are occupying the American mining concession at Unsan, Korea.

and Japanese scouts are now separated only by the River Cheng Cheng, Just north of Anju. The dispatch adds that the foreign correspondents will leave for the front on either March 22 or 23, but their destination is still unknown.

A correspondent of the Times at Wel-Hai-Wel cables, under yesterday's date: "I arrived at Ping Yang inlet March 15, and proceeded to Chinnampo. Navigation was difficult, owing to the drift ice. I found anchored there both war vessels and transports. Dispanese outposts, and that their forces in this district number 20,000. Under date of March 17, the Chefoo embarkation has been difficult, but the Japanese have brought all necessary appliances. Pontoon jetties have been built and extended for hundreds of yards, and the transports brough their own landing barges."

The correspondent describes the nding movements and the dispos the forces with some detail and says: infantry march twenty-five miles daily, each man carrying nearly one hundred pounds. It was a severe test, but they did well. Covered by this force, a larger force is now disembarking within easier distance of the Japanese objective, while preparations are re-ported proceeding at the only practical port on the east coast of Korea. The Japanese are now holding Anju and the line of the Cheng Cheng River. The actual land front points to a further retirement of the Russian forces

Japanese outposts, and that their forces in this district number 20,000. Under date of March 17, the Chefoo correspondent of the Standard reports that provision trains are arriving hourly at Port Arthur, the railway being intact.

The Daily Telegraph's correspondent, cabling March 17, asserts that the Russian fleet has returned to Port Arthur. If this is correct, the correspondent adds, it is evident from Rear-Admiral Baron Von Staeckelberg's report that the Russian cruisers which left Vladivostok returned to that port without an attempt having been made to unite the fleets, or if any attempt was made it was unsuccessful.

The Chefoo correspondent of the Paris edition of the New York Herald, cabling under yesterday's date, asserts that a portion of the Russian fleet made several cruises for a radius of fifty miles of Port Arthur without finding any trace of the enemy.

It is stated that the Russians are again negotiating for the purchase of Welsh coal, and it is reported from Hamburg that Russia is trying to place contracts with German ship-

CHINA SURELY NEUTRAL IEY THE ASSOCIATED PRESS-P.M.]
ST. PETERSBURG, March 17.-

The Chinese legation here has assured the Associated Press most posistends not only to observe the strict est neutrality during the war between Russia and Japan, but that the government thoroughly realizes the danger threatening the integrity of the Celestial Empire, in case it should become embroiled in the conflict.

"We are well aware," said a memory of the legacion, "that the aware,"

China can only play one role during the war, namely, that of absolute quiescence. I will not deny that there is some pro Japanese feeling among my countrymen, but there is also a good deal of pro-Russian feeling. One neutralizes the other.

LONDON, March 17.—[By Atlantic
Cable.] St. Patrick's Day was little observed in England. Few flags was served in England. Few flags were flown, and there was little demand for shamrocks. Queen Alexandra made her nown, and there was little demand for shamrocks. Queen Alexandra made her customary gift of shamrocks to the Irish guards. Each man was presented a sprig while on parade this morning at Aldershot. In Ireland the day was generally observed as a holiday, and business was suspended. The Lord Mayor's procession, which occurred in a heavy rain, was the principal attraction in Dublin.

A banquet held at the Hotel Cecil tonight was presided over by John Redmond and attended by the members of the Nationalist party in the House of Commons, and prominent Irishmen in London. The following cablegram from the United Irish League of America was read:

"The United Irish League of America clasps hands with our kindred at home and in the enemy's country on this national holiday. God save Ireland."

John Redmond, in proposing the

this national holiday. God save Ireland."

John Redmond, in proposing the toast, "Ireland, a Nation," said that the opportunity for which they had waited for so many long weary years had almost arrived—the opportunity for Ireland to be the deciding factor in the making or unmaking of the government of Great Britain. From a maority of 150 hostile to Ireland, they had wrested that great measure, the Irish Land-purchasing Act. Now that majority was melting before their eyes, and a period of most intense political interest to Ireland was approaching, the coming general election would witness the defeat of the Unionist government.

Redmond urged the Irish voters in Great Britain at the next election to put the question of home rule above everything else. He said that the future depends upon the nower and unity of the Irish party in Parliament. terday, were from the American mining concession. LONDON, March 17.—[By Atlantic Cable.] The Duke of Cambridge died at 10:35 o'clock this morning. He was a cousin of Queen Victoria and was born March 26, 1819.

The Duke died peacefully at Gloucester House, his Georgian residence on Park Lane. He had been confined to his house for some weeks, but until compelled to take to his bed he was, as has been his custom, a constant at tendant at functions of a national or charitable character. At the most recent of these, it was obvious that the Duke was becoming exceedingly feeble. He presented a somewhat pathetic figure, as, leaning heavily upon the arm of one of his sons, he advanced with faltering steps to address a gatheria, in aid of some patriotic movement.

Lease is supposed to have been the cause.

Up to the present year, the Duke retained much of his old-time activity, and, despite his great age, always participated in the shooting parties at his place in Cambridgeshire and enjoyed entertaining and being entertained. The title of Duke of Cambridge died with him, his sons being born of a morganatic marriage. His death also places at the disposal of the King a field marshal's baton, as well as an Order of the Garter.

The death of the Duke necessitates the postponement or cancellation of all royal functions, as the court will go into mourning for several weeks, and the programme for the whole London season will also have to be revised.

The flags on the public buildings were half-masted immediately after the death of the Duke became known, he royal standard over Buckingham Palace setting the example. In many cases, Irish flags flying in honor of St. Patrick's Day were removed.

The King and Queen went to Gloucester House this afternoon to offer their personal condolences.

The Duke is supposed to have been wealthy. On the death of his father, Parliament gave him an allowance of \$60,000 per annum. As commander-inchief, he received a salary of \$25,000 until 1887 and thereafter \$33,160 yearly. As colonel-in-chief of the Grenadier Guards, he received \$11,000 per year, while numerous appropriations brought him in a good revenue.

LONDON, March 17.—Although the cancellation of drawing rooms and other court functions has been ordered, the death of the Duke will not affect Their Majesties' proposed visits to Denmark and Ireland.

It is not generally known to the present generation that the Duke of Cambridge's wife was a burlesque actress and dancer named Farebrother. She was very well known in 1840, or thereabouts, and made a great sensation playing in burlesque at the Lyceum Theater. She died in 1890. MR. BRISTOW'S RESPONSIBILITY. COVERS ONLY SEVEN PAGES.

(BY THE ASSOCIATED PHESS A.M.)
WASHINGTON, March 17.—Fourt WASHINGTON, March 17.—Fourth Assistant Postmaster-General Bristow, in testifying before the House special committee on the postoffice report to-day, claimed for himself responsibility for only the first seven pages of the report which was sent to the Postoffice Committee, and said the other portions of the document were the work of other officials of the department. The clerk-hire section, he said, was prepared in the office of the First Assistant Postmaster-General, and that part relating to leases by inspectors and others in his own department.

Mr. Bristow's testimony threw much light on all phases of the inquiry. He practically cleared members of Congress from wrong-doing, touching the clerk-hire section of the report, by stating that it was the duty of the First Assistant's office to ascertain the condition of the work in an office where an increase had been recommended.

CONFIDENTIAL EXHIBITS.

WASHINGTON, March 17.—Fourth
Assistant Postmaster-General Bristow, before the Postoffice Investigation
Committee, was asked as to how the
committee was to get possession of
certain of the confidential exhibits
connected with his report. These exhibits have been kept secret because
of their bearing on pending prosecutions. They were used in making up
the report touching matter that was
submitted to the House.

Mr. Bristow told the committee the
sports would be submitted to it for
infidential inspection.

mittee began this afternoon with Mr. Bristow on the stand. He was asked how the special report was made up. He said that, January Z. the Postmaster-General referred to him the letter from Mr. Overstreet which appears in the report. He personally prepared the statement contained on pages four and five and transmitted it to Mr. Overstreet, with the letter appearing on pages 6 and 7, which was sent by messenger on the forenoon of January 25. In answer to this, Mr. Overstreet wrote to the Postmaster-General asking for additional information. The night of January 28, Mr. Bristow said, he was taken sick with the grip, and he was unable to be in his office until last Monday, March 18.

"I had nothing further personally to do with the matter," continued Mr. Bristow. "I am informed that the Postmaster-General asked that the office of the Fourth Assistant Postmaster-General prepare the information asked for, and that it was prepared by inspectors and turned over to the Postmaster-General by the chief inspector." In regard to the secret methods used by the department to ascertain the amount of clerk hire to which an office was entitled, Mr. Bristow said he had asked First Assistant Postmaster-General Wynne about this today, and Mr. Wynne had said that the method was not made known to the public, but if a member of Congress made inquiry, he was shown the method.

Mr. McDermott asked specifically, as to the duties of the Fourth Assistant Postmaster-General, and then took up the cases of Erie, Kan, for which it appears Mr. Bristow secured increased clerk hire, which it was afterward ascertained was not justifiable.

"In what maniner did you do that?"

Mr. Bristow said he referred the matter to the First Assistant Postmaster-General, with the understanding that it would be investigated and allowed, if warranted.

"Who was First Assistant Postmaster-General?"

"Mr. Heath."

"Why did you not make this investi-

ter-General?"
"Mr. Heath."
"Why did you not make this investi"Why did you not make this investi"why are yourself?"
not a part of my gation yourself?"
"Because it was not a part of my duties."

"Well, if you, being right in the building, had to rely on the investigation of the First Assistant Postmaster-General in such a case, was not a member of Congress in the same position?" "Why, certainly," answered Mr. Bristow. "He was supposed to pass on these cases on their merita."

Asked if he could not detail an inspector on such a case, he replied that this would not have been in accordance with the courtesy and practice of the office.

with the courtesy and practice of the office.

"Do you know whether or not this report came directly from the hands of the Postmaster-General without going into some one else's hands for inspection or perusal before it was sent to the Postoffice Committee of the House?" asked Mr. Bartlett.

"I don't know. I have been told, but I have no knowledge of it," answered Mr. Bristow.

"Have you ever had any conversation with the President that would lead you to believe so?" asked Mr. Bartlett, "I don't think you ought to ask that," interrupted Mr. Burton. "It is not within the scope of our investigation." "Well," broke in Mr. Bartlett, "we cannot get the President here, and there have been hints in the newspapers about this."

"Ought not we to inquire into whose hands it went?" asked Mr. Richardson of Alabama.

"I understand Gen, Bristow to say he did not know, It could be only hear-

"Do I understand the chairman to suggest that I should not ask that question?" Inquired Mr. Bartlett.

Mr. McCall intimated that, without attempting to restrain Mr. Bartlett, he thought the question should be considered by the committee in executive session. He desired the matter left open until the committee should go into executive session.

The questions of Mr. Bartlett involving the President were not touched upon during the executive session of the committee. Chairman McCall said the committee had begun to realise that the task before it was larger than at first anticipated.

Committee, was asked as to how the committee, was asked as to how the committee, was asked as to how the committee was to get possession of certain of the confidential exhibits connected with his report. These exhibits have been kept secret because of their bearing on pending prosecutions. They were used in making up the report touching matter that was submitted to the House.

Mr. Williams insisted that there ought not to be an attempt to reorganize the Postoffice Department in an appropriation bill. If it is to be reorganized, it should be done in a definite in and specific way.

Mr. Williams included in his objection cashiers whose salarles he was option cashiers.

posed to raising, and offered an amendment to reduce the amount allowed by the bill. Further criticising the proposed increase in salaries, Mr. Williams, as if by way of emphasis, remarked: "This is a department that is absolutely rotter from turret to foundation stone."

Mr. Payne of New York, the Republican leader, asked: "Where does the gentleman get this information?"

"I get it from their own office," replied Mr. Williams.

"Then you do not get it at all," hotly replied Mr. Williams.

"I do," warmly replied Mr. Williams, "and I get it from their charges against themselves, and I get it from the charge contained in the President's message, and I get it from the knowledge that prevails in this House."

He said that only one division of the Postoffice Department had been investigated.

"I believe, and I believe the gentleman from New York believes that there are other divisions in it equally corrupt."

seen a single man who knew anything about it.

"And still," he said, "the gentleman indulges in this extravagant language that the whole department is rotten." Mr. Williams then withdrew all the points of order and amendments he had offered.

Mr. Overstreet spoke of the difficulties encountered by the committee in preparing the bill. They had sought to accomplish two things, he said. The first was to segregate the several appropriations, in order that the expenditures may be made in accordance with the purposes of Congress, and second to segregate the employments and name them by proper language, in order that the duties may be performed more accurately.

curately.

Mr. Grosvenor of Ohio, speaking in sarcastic vein, said that great bureaus of the postoffice Department had been transferred to the Fourth Assistant Postmaster-General, and he thought it would be a good idea to let "Bristow run the whole machine" and thereby save the salaries of the other three assistants.

sistants.

Mr. Mann charged that the failure of the committee to increase salaries in certain grades was solely because it was desired to give the rural carriers the money.

On a point of order, the appropriation for physicians for postoffices was

air. Mann said that, notwithstanding the recommendation of the department for an increase of 80 clerks of the \$1300 class, the committee had cut the num-ber down to 445 and had cut the depart-ment's recommendation for 3300 clerks at \$1300 to 700. The commiteee, he de-clared, had not fairly treated the clerks in the postoffices in the large cities. If that policy was to remain, he said, there certainly would be presented in the House a bill putting the clerks on an eight-hour basis.

House a bill putting the clerks on areight-hour basis.

The charge that the Postoffice Department had diverted appropriations for cent, fuel, etc., to the payment of clering was vigorously made by Mr. Williams, and he demanded to know who was responsible for that abuse and for changing the law to suit his own will "Somebody," he said, "has been depriving the legislative branch of the government of its constitutional right and power to say where the public money shall go."

Some underling in the department had been making laws by construction, he added.

He said the most discouraging thing in American citizenship, as represented in the House, was for an honest man to come to Congress and find himself hedged all around with a wilderness of misinformation, over-information and i-ch-information, "whichever happens to suit the fellows who write their decrees and send them here to be registered or appropriation bills."

The hour of adjournment

The following bills were passed: Reinstating the homestead right of persons who have been compelled, through no fault of their own, to relinquish their homestead entries: authorizing the appointment of Capt. Allen V. Reed as rear-admiral on the retired list of the navy.

The Senate then, at 12:53 p.m., went into executive session, and at 4:55 p.m., adjourned.

WASHINGTON, March 17.—HOUSE—In the House today soon after convening the body went into committee of the whole to further consider the Postoffice Appropriation Bill, which was read for amendment. An item of \$5000 for advertising was agreed to. Am. Cromer of Indiana wanted the appropriation of \$7500 for compensation and expenses of United States delegates to the Universal Postal Congress at Rome reduced to \$5000. The difference in the amounts, he said, was intended to pay the expenses to Rome of a former member of the House, referring to Mr. Loud, "whose voice," he said, "always had been raised in the interest of economy."

After a lively debate, the amendment was agreed to by a vote, by tellers, of \$8 to 75.

"And," he diclared, "If you dare to attack the men who are furnishing your campaign expenses and carry it far enough to persuade them you are in earnest, you will be quelled, too. If you don't do it, you will be quelled by the people."

Mr. Tawney of Minnesota stirred up a hornet's nest when he inquired of Mr. Milliams if he could state how the Democrats in the Fifty-first Congress voted when the Sherman law was up for consideration. He declared that every delegate voted against it. The House was at once in an uproar. Mr. Gaines of Tennessee, gesticulating wildly, asserted that every one voted for the bill when it was passed by the House, and that it passed the Ho'se and Senate unanimously. His remarks were met by laughter and jeers from the Republican side. He stated that the first bill had been introduced by Senator Teller, and began to give a history of the legislation, when he was interrupted by Mr. Tawney, who said that when Mr. McKinley presented the rule for the consideration of the anti-trust law the Democrats opposed it.

"Ah, get out!" shouted Mr. Gaines, amid great confusion.

Some questions were also asked regarding the possibility of purchasing fodder and other supplies, also regarding the procurement of carts for transportation purposes, should the railway not be available. EAST-BOUND FREIGHT RATES. TRAFFIC MANAGERS CONFER. (BY DIRECT WIRE TO THE TIMES.)
CHICAGO, March 17.—[Exclusive Dispatch.] Informal conferences held by the traffic managers of railroads operating between Chicago and New York have been in progress for several days past, preliminary to the calling of a general meeting for the purpose of considering east-bound

freight rates in all phases. Official statistics, recently published, showing the great falling-off in the export of grain from Atlantic ports have impressed the railroad managers with more than usual force, it has been known for the last three years that the volume of export grain traffic was steadily turning away from the was steadily turning away from the Atlantic to the Gulf and Pacific ports. During the month of February, statistics show that New York was the only Atlantic port from which export wheat was sent, and that the total amount of shipments for that month was only 13,000 bushels. The total grain export shipments from the country during February was about exception of a section of in the Southwestern portage, winter wheat appears and New Orleans together sent 1,200,000 bushels. It is this wholesale with-

drawal of export grain trade from Atlantic ports that is chiefly responsible for the present rate-cutting of east-bound grain designed for export. The Buffalo and New York roads have been putting forth their best efforts to regain a fair proportion of this export grain traffic for New York City. The Pennsylvania, Baltimore and Ohio, and Lehigh Valley roads have been working as strenuously in the state of the present the pr

been working as strenuously in the interests of Philadelphia and Balti-more. Hence the railroad freights on this land of traffic have been cut down to a point considerably below the cost of transportation.

It is now ascertained that this ex-

traordinary cutting of rates has had comparatively little effect in turning the course of export grain traffic from Gulf ports. During the first half of the present month, the trunk lines have scarcely more than doubled the amount of export traffic, while the lines leading to the Gulf ports have materially increased the quantity of grain hauled to Galveston and New

TAFT CONTINUES TESTIMONY.

WASHINGTON, March 17.—Secretary of War Taft continued his discussion of Philippine matters before the House Committee on Insular Affairs today. The Secretary suggested an amendment

week, and had been assured by cap-italists there that they would go into the enterprise if the government would insure a certain income on the invest-ment.

ment.
Reviewing the history of railroad building in the English possessions, Secretary Taft said that, in many instances, the government had built these roads.

stances, the government had built these roads.

If Congress wanted to build these roads, he said, the commission undoubtedly would undertake it. His own views, however, were against the policy on account of the complications such as liability to employes, etc.

Secretary Taft said Secretary Root had consulted Sir William Van Horn of the Canadian Pacific, who is building roads in Cuba. as te securing American capital for the Philippine roads. Mr. Van Horn sent two engineers to make an original investigation and the result of this work is given in a report Secretary Taft submitted to the committee. A trunk line is suggested in the north of the Island of Luzon, and also a line in the southern end. Secretary Taft said he had talked to the president of the English company owning the Luzon railroad, and he believed it would sell out. It desired, however, to sell to a certain London bauking-house. This the Secretary objected to.

The projected road in the south of

London banking-house. This the Secretary objected to.

The projected road in the south of the island, Secretary Taft believed, would pay from the beginning. The total mileage needed, he said, would be between 700 and 800 miles, and 25, 600,000 or \$30,000,000 would cover the cost. A 4 per cent. burden on the Philippine treasury on this investment would be about \$1,000,000 a year, and the Secretary believed that could be paid without hardship.

Another suggestion which Secretary Taft said he supposed would met with some objection, was to change the title of "Civil Governor" to "Governor-General."

Since the passing of the military

Since the passing of the military governor, there had been established thirty-eight governors of provinces, the civil governor was in reality, the "governor-general," and it would be well, he said, to make this title official

CANNOT VISIT THE FAIR.

CANNOT VISIT THE FAIR.

WASHINGTON, March 17.—The President will not attend the formal opening of the Louisians Purchase Exposition. When President Francis of the exposition was in Washington recently he presented to the President and to members of the Cabinet an urgent invitation to attend the opening exercises at the fair, expressing the hope that the President would not only make it convenient to be present, but also participate in the ceremonies. The President then said that he probably would be able to go to St. Louis at that time.

Since then he has decided that he will not be able to be present at the opening of the fair. It is problematical, indeed, whether the President will visit the fair at any time, although it is understood he has not decided definitely not to go to the exposition. It is a cause of regret to him that, at present, at least, he does not see his way clear to be among the fair's visitors at some time during its progress.

All of the properties in that district were in the prospective stage; not one of them was yielding its owner any return upon the money invested in it; it was too early in its life to expect that. Yet, there has been expended on mining claims in that campolose upon a million dollars—possibly more—the greater portion of which has been paid for labor. One company has expended fully half a million dollars upon its claims and plant, but as yet not a dollar has come back to it in dividends. Other investors occupied similar positions; they were all engaged in developing their claims houting and has prophecies as to the other investors occupied similar posi-tions: they were all engaged in de-veloping their claims, hoping and be-lieving that they would find ore bod-les of sufficient extent and richness not making any prophecies as to the outcome of this struggle, nor are we disparaging the prowess or the valor to compensate them for their of the Japanese arms, but surely no-outlay of time and money. The country should have considered these conditions; should have recognized the risks that the owners of the claims were taking, and, in view of the possible uncertainties, should have been willing to await what further development would show, while in the meantime being well paid for their work. But no, they cared nothing for the interests of their employers; they refused to recognize anything but their selfish selves; they did not care whether the property was paying or whether it was not paying, what they wanted was more pay for themselves, and if it were refused they would quit work. Yes, quit work—and more than over which the fighting must be done covers a large area, parts of it are subject to extreme severities of weather, all of which, with many other count, would appear to make it certain that the war will be a protracted one.

THE EASTERN WINTER.

The winter in the East is now drawing to a close, but it is still showing signs of dying hard. Blizzards and heavy snowfails continue, and altogether, it has been the worst season in an experience covering the past altogether, it has been the worst sea-son in an experience covering the past thirty years. There has been, as a consequence, untold suffering among all classes of people there, especially, of course, among the poor, who were the least prepared to meet the severe whistles, and clanging car bells, the stentorian voices of overgrown news-paper venders, and other unnecessary noises that make city life a purgatory to the nervous and a hell to the sick.

By the telegraphic reports to The Times for several months past and by data compiled from various other sources it is shown that the snowfall efforts. No man contributed more than in Boston has been sixty-six inches, be to yesterday's laudable achievement. By the telegraphic reports to The history. In New York the fall of the

In between, in orchestra, parquet and balcony, were other people who knew her, or who had heard of her voice and fame. The gathering was large and enthusiastic, filling almost every seat. Flowers? There were new creations in the floral kingdom yesterday, made especially for Ellen Beach Yaw. There was a very wonderful basket of white, with little fairy flowers sticking out in spray all over a bed of green-splotched snow, the whole tied with bows of white tille. Also there was a fountain-like mass of carnations—big pothouse reconstrates. paper venders, and other unnecessary noises that make city life a purgatory to the nervous and a hell to the sick.

The splendid success of the Arbor Day tree-planting in Los Angeles yesterday will recall to the readers of The Times the ardent work in the way of arousing public interest in behalf of that worthy cause performed by the factle pen of the former writer of paragraphs for these columns, whose recent tragic death abruptly ended his able efforts. No man contributed more than he to yesterday's laudable achievement. Surely, the good men do lives after them.

Admiral Alexieff denies the Japanese siory of a fire in Port Arthur, and terms it a "base fabrication." If the bitter feeling between the various parties in the Fa East continues to increase, there is yet going to be trouble and some one will get hurt.

The bearing of all this upon the present situation is important. Charges are openly made that the exchange dock committee is neglecting its duties. Several cargoes recently have been open to the charge of trimming. The inspectors are said to be indifferent in their work. At any rate, buyers do not get good fruit. Brokers buy no more than they are compelled to buy. Jobbers discover that the bill for repacking is much larger than it would appear and numerous other unpleasant and expensive consequences follow in the train of this neglect.

SADIE CONFESSES.

"Imprisonment" Was a Rank
Canard.

Sadie Peterson, alias Sarah Hayward, acknowledged yesterday afternoon to Patrolman Boyd and Wood that she had not been kidnaped and that her wild story of being bound, gaged and imprisoned in a room was simply a "pipe dream."

She acknowledged that she had been staying in a cottage in the rear of No. 632 Stephsenson avenue, with "Mr. and Mrs. Fox." as she called her companions, and said she could not understand why she had written to her mother telling stories of capture and imprisonment. She acknowledged that she was in Eastlake Park Sunday afternoon and said further that when the newspapers came out with accounts of her mysterious disappearance, she decided that it was about time to end her spree and go home. By the police Sadie is regarded as "a bad one." The two officers who talked with her say that she bore the appearance of having been on a protracted drunk, and it was learned that during her "imprisonment" a Marconi "growler" sys m was in complete and successful operation between the cottage and a saloon at Third and Alameda streets.

The detectives received an anony-

cottage and a saloon at Third and Alameda streets.

The detectives received an anonymous letter yesterday in which the writer stated that the Hayward woman had not been kidnaped, but that she had been having a "high old time" with him for several days. They think the anonymous letter writer told the truth for once, sneaky as he was about it.

Lord Strathcona, the Canadian High Commissioner in London, has, according to James Lumsden, in his work, "Westward" a fortune estimated at no less than \$125,000,000. Lord Mount-Stephen, who commenced life as a pioneer in Western Canada, is worth \$75,000,000, and Mr. Ross of Montreal is the possessor of a like amount. Mr. Reid, known in Canada as "Casr Reid," is accredited with a fortune of \$36,000,000.

Telegraphs Greetings to San Diego Pupils.

Thousands Cheer His Arbor Day Congratulations.

Gov. Pardee Also Sends Kindly Message.

SAN DIEGO, March 17.—{Exclusive Dispatch.] Thirty-five hundred children from the public schools, and as many more grown-up folks of the city and country, made the welkin ring today when M. B. Coulston, secretary of the City Park Plans Improvement Committee, read the following cordial telegraphic greetings from President Roosevelt, directed to the school children of San Diego:

"Hearty greetings and congratulations on the establishment of Arbor Day. Your love of trees now will make you as men and women lovers of forests, both for their natural beauty and economic value. Let your motto be to preserve and care for them as permanent factors for the production of wood, as storage places for the water which is needed in irrigation, and as playgrounds for young and old.

Aurora Berealis Phenomena.

By far the most valuable part of Sir W. Ramsay's siddress at Zion College, from a scientific point of view, was the explanation of aurora borealis, which he showed great reason to believe is an astrophysical and not a merely terrestial phenomenon. In other words, the sun is sending out swarms of infinitely small electrons, or particles of electrified matter, and these, acting on krypton, the recently-discovered element, in our atmosphere, produce the aurora. Dr. Johnstone Stoney, a high authority in these subjects, clearly accepts this theory, for in a letter to Nature he says: "We have to take into account that outpour of corpuscies from the sun, which, in the upper regions of the atmosphere, is able to excite into intense activity the internal motions of krypton, which produce the green auroral line Aurora Berealis Phenomena. is able to excite into intense activity the internal motions of krypton, which produce the green auroral line (in the spectroscope,) and presumably with equal and perhaps increased vigor imparts energy to the molecules of helium which range to still greater attitudes." Over twenty years ago, in these columns, apropos of Lemstrom's observations, we urged the probability of the aurora being electrical. But helium and krypton, and radio-activity were then undreamed of.—[London Telegraph.

Women Lawyers Advancing.

In the language of the provincial statesman, the trousered lawyers of New York "view with alarm" the steady advance made by the Portias and the women's growth in numbers and influence. Fancy, even ten years ago, a gathering like 'that of Tuesday night in the chapter room of Carnegie Hall, when Mrs. Philip Carpester presided at the entertainment of the Woman Lawyers' Club. Either it would have been ignored altogether or treated with ridicule, but Tuesday night's entertainment not only was received with respect, but with an evident appreciation that the woman advocate was in the field to stay and well able to hold her own with the men. For clearness of expression and lucid presentation of ideas the addresses of Emily Bullows and Carrie Gliman Edwards were equal to any and superior to many addresses made by mais members of the bar.—[New York Press.] Women Lawyers Advancing.

TEW TURN IN DILLON AFFAIR.

NATIONAL BOARD OF ARBITRA-TION TO SETTLE IT.

Morley Asks the League to Keep Hands Off-Chase, the Fast Youngster Signed in the North to Report for Duty This Afternoon.

The status of Frank Dillon is "up o" the National Board of Arbitration, ecording to Manager Morley, who re-urned from San Francisco yesterday. "I made no attempt to reopen the Dillon matter," said Morley. "After the schedule committee had finished its work. I simply requested President Bert and the league to keep hands off the Dillon business and let me settle it myself.

ared in the informal talk "It appeared in the informal talk we had that the National Association demanded eighteen men before it was we had that the National Association demanded eighteen men before it was willing to ratify the peace pact, and Messrs. Bert and Harris thought they were doing well in compromising on three, taking Dilion from me, thinking perhaps I can go and get bail players off the bushes any time I want them. The result of our talk was Bert's agreement to let me fight it out with Hanion and to abide by the result, which I will do myself. The National Board is composed of Ban Johnson of the American League, Harry Fulliam of the National and Garry Hermann, who is considered a fair and unprejudiced man. If they say Dillon must go, he must go. Otherwise it is nothing to the Coast League if I play him. I expect to be able to get permission to play Dillon pending the decision. "President Bert denies the interview in which he is quoted as ordering the umpires to throw Dillon off the grounds if he tries to play. Bert told me he had never given out an interview on the subject, and would not. "Dan Loug, Hanlon's agent on the Coast. Was in this city.

This noon Harry Chase, the new ball player picked up by Morley in the north, will report for duty. He is already in condition, having played college and semi-professional ball sil winter. Chase is a Santa Clara College man, and is one of the team which was umpired by Morley of this city. His showing in that game which was umpired by Morley of this city. His showing in that game which was umpired by Morley practically secured him his situation with the Looloos.

Charlie Irwin, manager of the San Prancisco team, was also after the lad. Morley thinks he has made a real find.

Chase plays anywhere, even to pitching or catching, and according to Moriey can do anything on a ball field but back up his own throws. His position is on either side of second base. The newcomer is very much such a looking lad as Johnny Evers, the sensational second baseman of the Chicago Nationals. He is a loose-jointed fellow with considerable ground-covering ability, and is touted as a natural ball player.

Morley did not really need another man, but is unwilling to let a good thing go by, especially as his friends up north might take a fancy to give away two or three of his men some fine day. When drafting time comes it will be well to have two or three promising colts to fall back upon.

The Looloos have been working mornings lately, putting in about three hours from 10 o'clock on. Morley expects to split up the day's work into two tricks of two hours each hereafter. Those of the team who have been in town all winter are in good enough shape, but Bernard, Flood and Toman need more work to get the stiffness out of their muscles.

CHICAGO DEFEATS TACOMA.

GREAT GAME AT FRESNO.

[BY THE ASSOCIATED PRESS-P.M.]

FRESNO, March 17.—In the most sensational game of baseball ever seen on the local diamond, the Chicago boys defeated the Tacoma team this after-tion by a score of 4 to 0. The game noon by a score of \$ to \$. The game lasted thirteen innings, and all of the runs were made when Knell was put in the box. The pliching of Keefe for Tacoma was the feature of the day. He allowed Chicago only two hits, and struck out Chance, the Chicago captain, twice during the seven innings he was in the box. Three thousand people witnessed the great game. Both teams will play tomorrow, and Overall will go in the box for Tacoma. Score: Tacoma, 0; hits, 5; errors, 1. Chicago, 4; hits, 9; errors, 0. Batteries—St. Vrain, Keefe, Kneh, Graham and Hogan; Weimer, Brown, Lundgren, Corridon and O'Neill.

BRITT BACKER WANTS ODDS. BRITT BACKER WANTS ODDS.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, March 17.—[Exclusive Dispatch.] The first attempt to place a bet on the Corbett-Britt fight was made yesterday, when an unnamed backer of Britt left \$1200 at Harry Corbett's to be covered with \$2000 of "Young Corbett's" money. Ten to six seems too long a price, and up to tonight the deposit remains uncovered. The general belief is that 10 to 8 will be the price at the opening. Britt has many supporters, and the weight of coin, backed by sentiment, is likely to affect the odds, although the champion will be a steady favorite.

Three Favorites in Front in the Six Races.

Long shots come but once a year, but when they come they bring good cheer—that is to those who are riding them. The large class that neglects to consect generally makes a great roar over their stupidity and talk about the mat-

Agnes has all the balance of the nags at the park locked in the barn when it comes to surprises, and the way in which they forgot her was as painful and yet oppressive as the thick, murky calm that settled over the ring when she shot in first. Things were so quiet that you could have heard a gum drop, and those who "liked her," but didn't by any tickets on her had the poor, weak satisfaction of knowing that there were whole families in the same unfortunate position.

There were quite a number, however, that did get down right, one well-known Spring-street sport in particular playing her one-two-three for \$5 in six or seven books, at odds ranging from 6 to 30 to 1. Others played her to run third at 3 and 4 to 1, and there must have been a lot of them all told, for several of the books lost over \$1000 on the race.

It was a very hard race to pick, for any one of the nine horses in it had a chance. On the belief that Laura F. M. might be right she was made the favorite, but was so far wrong that she ran absolutely last. Cardwelton was the next most popular, and he just managed to beat Laura out of the booby prize. These were picked as if they were algeady in, and a great many played Thisbe and nibbled at anything in the race. Agnes was passed by like a smooth nickel into the contribution box, and after opening at 6 to 1 gradually rose until 30 and 40 to 1 at post time.

The race was practically over from the start, for Agnes, getting away third at once leaped away in the lead, and at the half was two lengths in front of the next horse. Nitrate captured the St. Patrick's Handicap from his stable companion, Elwood, Foncasta being third after showing all kinds of speed from the half into the stretch. The hot tip, C, B. Campbell, was a false alarm and finished a bad last.

The prohibitive favorite, Hersain, at 1 to 3, just managed to beat the outsider, Devon B., in the baby race in a furious drive through the stretch. The others were hopelessly beaten off before the turn was made.

Another outsider, Merwan, again jarred the bolts loose by winning the last race at 10 to -1 from Phyz and Sherry, the favorite, Inaugurator, being in sixth place. This was another dump for both the wise and the pikers, for those who did not play the favorite went to Phyz. Sully, still leader of the bull element opened the day by placing heavy buying orders on all sides and running quotations of the active months up by from 30 to 40 points. This was followed by a determined onslaught by the bears, and in short order prices were toppling. The market became utterly demoralized, and Sully was completely down in his efforts to produce a substantial raily.

Amid the swirl of excitement, prices for near options sagged. May cotton went off a total of 104 points net, with loss for the say of \$5.20 per bale. Sully was a heavy loser. His holdings are estimated at many thousands of bales. He finally stopped buying in face of the fast-declining market, and it was discovered that New Orleans interests were selling cotton freely in the market.

Sully was obviously nervous over this fact, though he declared to his friends that the market was bound to turn soon. At about noon the market bordered upon a panic for a few moments, during a period of sensational weakness and overpowering volumes of liquidation, but late in the afternoon the tide turned somewhat, although active operations continued from 60 to 70 points below the high prices of the day.

in habeas-corpus proceedings is this:
An application for a writ is made to
the Chief Justice. He then calls the
court together informally in chambers
and it is decided what shall be done.
When the writ is issued it is made returnable before the court en banc, and
if there is pressure of business, sometimes before one of the departments.
But Griffith's case will be heard by
Justice McFarland sitting alone. This
is strictly in accordance with the law,
but contrary to precedent of the Supreme Court.

The only point raised by the petition upon which the writ was issued,
is the matter of Griffith's health. On
this point District Attorney Fredericks
informed himself thoroughly, and took
north with him a bunch of affidavits.
Not only is the new County Jall one
of the most healthful in the country,
whether viewed from a sanitary standpoint or from that of reasonable comfort, but four medical men yesterday
examined Griffith ha a most exhaustive
manner. Drs. Hitchcock, Campbell,
Trueworthy and Goodrich all had
a turn at him. Griffith was stripped
and put through the most rigid and
searching examination, as to his heart,
lung kidneys and mental condition.
The finding of the physicians was embodied in a series of affidavits which
will be used to combat the contention
that Griffith has drooped and faded
while confined in the County Jall.

The question of health is the only
one raised, but there are other technical points that may be sprung and
if they are the District Attorney deseares he is fully prepared.

New Numbers Filed With the Board of Supervisors and the Lines Changed Yesterday—City Always Follows the Lines Laid Down by the County in Elections

The number of every voting precinct has been changed, the new numbers being filed with the Board of Supervisors and here published for the first time. In many cases the boundary lines have been sweepingly changed. By the aid of the new numbers given, it will be a simple matter to find out at the County Clerk's office in which precinct you vote next time. The changes have been made by the Supervisors. The city always follows the lines laid down by the county in elections. The new numbers in the city follow:

Horse Thief Caught After Chase of Months.

Rivera Hidden and Helped Along by Peons.

Costs County Much Money to Land Him.

Since last summer the peons hereabout have been hiding a Mexican horse thief, Ignacio Rivera, passing him along from one shelter to another by a system like the "underground radiroad" of slave days.

Yesterday, in a moment of relaxed vigilance, he was caught. Ignacio was arrested by Deputy Sheriff Wilson in the country west of the city, near Poncho Lugo's place.

Poncho Lugo's place.
Rivera was taken so completely by Rivera was taken so completely by surprise that he could not figut.

He has cost the county more money and more trouble than any prisoner taken for a long time. Offers have spent weeks at a time hounding his trial, only to be baffled by the Mexicans who kept Ignacio in hiding; warned him when the officers were coming; sneaked him along from one house to another, giving him shelter and food and even money.

Word came yesterday that he was near the Lugo store. Deputy Sheriff Wilson went at once to the place.

Rivera was sitting idly in the sunshine in front of a saloon run by a man named Ducos. Wilson came up from behind and grabbed him suddenly. Searching the Mexican, Wilson found that he was carrying a large revolver.

Booth-Tucker Coming.

Commander Booth-Tucker, leader of the Salvation Army, will speak in Simpson Auditorium in the afternoon and evening of Sunday, the 27th inst. At the latter time he will deliver the lecture, "Dramatic Scenes of Love and Sorrow."

Mrs. Albertina Schwannecke, widow of the late Dr. Henry Schwannecke, is dead in New York. She was the mother of several sons, two of them living here, and one daughter, Mrs. J. W. Fullerton, who also lives here. Mrs. Schwannecke was aged 67 years.

Kilties' Football.

A team of the Kiltles Band will play football at Prager Park tomorrow afternoon with the Los Angeles Association football club. The band will give its concert at Hazard's Pavilion at 2 p.m., and at 4 p.m. will go to the park. Members of the band who do not play on the gridiron will render music during the game.

The British Vice-Consul, C. White Mortimer, is preparing a report for his government showing the number of persons divorced in Los Angeles during the past year. The list drawn up for his use by the County Clerk, shows that 759 divorce suits were filed: 476 decrees were granted, 231 are pending, 64 have been dismissed, and 18 were denied.

Federman's Safe Robbed.

S. S. Rederman, treasurer of the Hebrew Benevolent Society and the Kaspare Cohn Hospital Association, left the safe in his office in the Hellman Riock unlocked Wednesday night. Yesterday morning he found the drawers pried open and riffed. Three deeds to property, some private papers and a number of old coins, domestic and foreign, were missing.

Died of Apoplexy.

The autopsy held on the remains of the wife of Senator Fred M. Smith yesterday showed that her death was caused by pulmonary apoplexy. Funeral services will be held at 2 o'clock this afternoon at the chapel of Orr & Hines, Rev. J. S. Thomson officiating. Interment will take place at Rosedale. Senator Smith received many messages of condolence yesterday.

Lower Wanted Rest.

The Coroner's jury at the inquest

The Coroner's jury at the inquest over the remains of Benjamin E. Lower, yesterday, returned a verdict to the effect that his death was caused by laudanum and chloroform self-administered. A note which he wrote just prior to taking the drugs showed that his motive was suicide. "I am tired and my head hurts and I want to take a rest. Therefore I have decided to shuffle off," were his words.

Patriarchs Militant.

The ball given last night at Blanchard Hall by Canton Orion, No. 12, Patriarchs Militant, 1.0.0.F., drew a large crowd, seventy-five couples participating during the evening. The entertainment was one of a monthly series that has been arranged to aid in defraying the expenses attendant upon sending a drill team from the local canton to the Bovereign Grand Lodge, which will convene in San Francisco in September. The members of Canton Orion, No. 12, are preparing for a great celebration April 28, which will be the eighty-fifth anniversary of the founding of the order. A picnic will be given at Verdugo Park, and Gen. W. H. Barnes of San Francisco, Past Grand Master, will be the speaker of the day.

Northfield Extension Union Services.

A series of union meetings will be conducted by Rev. G. Campbell Morgan. D.D., successor to the late D. L. Moody at Mason Operahouse, Sunday evening, March 29, and each afternoon, except Saturday, at 4 o'clock at Temple Baptist Church, corner Sixth and Hill streets and each evening except Saturday at 7:30 at First Congregational Church, corner Ninth and Hope streets. These are union meetings of all the city churches. The public invited. The Rev. Morgan is one of the greatest preachers of our time.

MONARCHS TO GRACE AND BLESS FUTURE.

Little Oaks and Trees of Every Land and Clime Planted in Los Angeles. Joyous Observance of the Fine Day of the Pretty Green.

ple in this world of ours. It was among the trees that the ploneer Americans erected their log cabins, where sincere hospitality abounded in its truest sense. It was among the trees that the lowly Nuzarene suffered His greatest agony. And you will remember that the grave of an ancient King, whose memory many millions venerate, was marked by a branch which has made the name of the acacia sacred. Authors and statesmen have laid upon the altar of literature their most eloquent tributes to the worth and beauty of trees and flowers; and in this section it is not the worth and beauty of trees and flowers; and in this section it is not the buildings wherein you live or transact business; it is not the well kept streets that command the greatest admiration of the mapy thousands who visit you each season; it is your trees and flowers, for mother earth has here enrobed herself with these in great variety to the delight of her children."

Two hundred school children were banked at the foot of the speakers stand, and sang several appropriate songs, led by Miss Catherine Stone.

This sickening experience was repeated five or six times. Finally the plan to put trees there was abandoned. The ground upon which this acheol and the High School are located, used to be in the old City Cemetery.

When the schools were built, it was thought all the bodies were exhumed, but in some cases, the grave markings had been lost, and some bodies, perhaps a large number, must have been overlooked.

To put it mildly, Arbor Day, cele-

To put it mildly, Arbor Day, celebrated yesterday, was a splendld success. A large crowd was on hand in Central Park at 2 o'clock in the afternoon to give it a good start, and a large crowd saw the finish of the tree planting on sightly Cape Horn, Elysian Park, shortly before 5 o'clock.

The exercises at Central Park were simple. Mayor Snyder end F. A. Palkenburg of Denver, vice-president of the National Fraternal Congress, the apeakers of the day, headed a procession through the principal streets to the pavilion, escorted by the degree teams of Camp La Fiesta and Camp Los Angeles, Woodmen of the World, and a brass band. The parade was in charge of Col. J. B. Lonkershim. Members of the various committees that have had charge of arrangements for the day occupied seats in the pavilion with the speakers.

Mayor Snyder was the first introduced by Chafirman Haskett, and he made brief but almost impassioned remarks in favor of tree planting and tree preservation.

AT THE CITY HALL. LOR CHARTER AMENDMENT.

MUNICIPAL LEAGUE FAVORS NEW PROVISIONS.

Board of Public Works to be Ap-pointed by the Mayor and Regis-tration of Day Laborers Two Ques-tions to be Considered—Other

More charter amendments are in pros-

The Municipal League has decided hat some changes in the organic law hould be made. Members of the Council were asked

Members of the Council were asked yesterday to aid in the movement. It is thought that another charter revision committee will be appointed. The great rush of moulding the charter amendments just before the last election resulted in some errors and omis-

By mistake the dismissal of members of the police and fire departments was left in the hands of the department left in the hands of the department commissions instead of with the Civil Service Commission. Two or three po-licemen have been summarily dropped from the force by the Police Commis-sion, whereas, but for an error in the charter, they would have been entitled to a hearing before the Civil Service Commission.

service Commission. Two or three policemen have-given summarily dropped from the force by the Police Commission, whereas, but for an error in the charter, they would have been entitled to a hearing before the Civil Service Commission.

Municipal experts agree, however, that the important thing to be considered in connection with charter revision is the creation of a Board of Public Works of salaried men who can devote their entire time to the duties of the Council bearing that name amounts to upwards of \$1,500,000 annually. All the Vrocoman Act street work, including the grading of streets, the laying of sidewalks and curbs and the construction of sewers, passes through the public works branch of the city government. A Council committee to do justice to the work unless they devote their entire time to be it, and that is generally recognized.

A Board of Public Works to consist of there men appointed by the Mayor under the rotation in office system is favored by the Municipal League, it is understood. They would draw a yearly salary of about 13000 aplece.

The scheme under consideration contempistes the appointing power. All street work, including the establishing of grades, piacing of crosswalks and every bit of the minutia of public work would be in the hands of this board. An office would be maintained at the City Hall where all persons having protests against public works on committee, with full power, to present the statements made by Messra. The remark smacked of flippancy. The scheme under consideration contempistes the appointing power. All street work including the establishing of grades, piacing of crosswalks and every bit of the minutia of public work would be in the hands of this board. An office would be maintained in the population of the streets where the product of the city flat where all persons having protests against public works could be accomplicated to the work unless the population of the streets where the product of the product o

amendments to the people, the Council merely attending to the necessary legal formalities.

If the Council should refuse to appoint such a committee any of the civic organizations could select a Charter Revision Committee and by securing the signatures of 3000 or more voters to amendments compel the Council to submit them unchanged to a vote of the people. This right is guaranteed the people by an amendment to the Constitution of the State adopted at the last general election. There is also provided in the direct legislation provision of the charter a way by which the Council can be compelled to submit charter amendments, it is said. There is no prospect that resort will be had to these methods of securing a vote on proposed amendments, as the Council has in no way opposed the plan to amend the charter.

When the committee is appointed there will surely be a discussion of the election of Councilmen at large. Some authorities favor the election of all the Councilmen at large, thus obliterating the ward lines entirely; others believe that a Councilman should be elected from each ward and a certain number in addition should be chosen from the entire city.

A number of educational questions will come up for discussion. A charter amendment relating to the educational department of the city was defeated at the last election because of certain defeated amendment relating to the educations were incorporated in the defeated amendment, and it is probable that any Charter Revision Committee will formulate them in another amendment.

"The Municipal League is in favor of a Board of Public Works composed of men who are paid enough so that they can devote their entire time to the work." said Secretary C. D. Willard

The laten by the Committee can be taken by the Committee can harter Revision Committee can its sessions. It is also planned to incorporate in the charter a scheme for the registration of day laborers in the city's employ tion of day laborers in the city's employ to a sort of addenda to the civil service.

Members of the Council were approached pasterday by members of the Municipal League, who desire the appointment of another charter revision committee to prepare amendments to the organic law.

The inquiry into the question of the insanity of Joseph W. Stark ended yes terday, the medical commission finding that Stark is sane. The judge concurred, but intimated he believed Stark made the threats alieged against H. E. Huntington and other railroad officials. LeRoy Smith, one of the prosecution in the Choiser case against the police officers, is on the verge of trouble, and is shown up in a discreditable light.

H. A. Greene is suing the Osceola Mining Company in Judge Allen's court, to recover on a note, given under unusual circumstances.

A new complaint was filed against the alleged pickpocket, William Adams, in the Police Court, and Attorney Hutchison immediately took steps to have him released on habeas corpus.

Examinations for day laborers are rejuncted to the question, but it is thought that some scheme can be decay to che week in order that some doctors might confer with the medical examination of the politicians of both parties to undermine the civit committee should meet an attempt of the provisions of the charter. Notatit is put in this report by the Municipal League, and it is further declared that there is sufficient sentiment against the old system to defect any with move if it were attempted.

The adoption of a charter amendment witnesses for the prosecution in the choiser case against the police of the charter. Notatit is further declared that the findings, whether for or against Stark, be suepended for one week westing the that the Charter Revision committee the text that the Charter Revision committee should meet an attempt would be made by the Municipal League, and it is further declared that the findings setuin the the vision committee should meet an attempt with the medical examiners had found that the defendant was not lusane, and in that finding he said he concurred. M'LEOD SENTENCED.

BELIEVED TO BE INSANE.

A. B. McLeod was given a sentence of \$60 or sixty days by Justice Austin, yesterday, for hitting W. L. Kane, proprietor of the Alcasar lodginghouse, on the head with a bottle wrapped in a towel. McLeod brazeniy admitted that he "plunked" the old man and remarked that he was sorry he had not killed him. He denied that he was trying to get into Kane's room to steal his money; he said he merely wanted the landlord to fill a hot-water bag for him when he was ejected from the room. That made him angry, so he went to a saloon and got an empty beer bottle with which he returned to the house and struck Kane for revenge.

McLeod's father and brother testified that he was suffering from inflammatory rheumatism and had for some time appeared to be mentally unbalanced. They were taking steps to have him examined for insanity when the trouble occurred. McLeod's relatives seem to be highly respectable people and they are much concerned over his predicament. They say he is not a criminal, but is crasy. Bell Held for Burglary.

Boil Held for Burglary.

Walter F. Bell, a scapegrace son of Maj. Horace Bell, was held to answer for burglary, by Justice Austin yesterday. Maj. Bell did not appear as counsel for the young man, as he has done on numerous other occasions to get boys of his out of serious scrapes. The boy acted as his own lawyer, and cross-examined witnesses, but could not get away from the fact that he was caught in the act of shoplitting. Bell is believed to belong to an organized gang of criminals. He was one of the gang arrested at the time O'Brien and Rice, the sure-thing gamblers, went up against the law once too often. His record is so bad and the evidence against him in the present case os strong that he will probable go up for a long term in the penitentary. Justice Austin fixed his ball at \$2000.

Mule Gots a Vacation.

Charles Sauer, a driver for the contracting firm of Tryan & Brain, was fined \$15\$ yesterday by Justice Austin for crueity to a mule. Dr. Edmonds testified that the animal was in poor health, its mouth and tongue were badly lacerated and torn by being sawed with a cruei bit. The afflicted mule was brought—to the Police Station as evidence, and elicited much sympathy. The court, in addition to making the driver pay a penalty, ordered that the naule be given a vacation of thirty days to recuperate its health.

M. Riley, a blacksmith living at No. 1424 San Pedro street, was arraigned before Justice Austin yesterday for beating his wife last Saturday night while drunk. Riley did not deny the chargs, but his faithful agouse failed to be on hand to testify against him. The case was continued for hearing of evidence.

Guilty on Charge of Counterfeiting has been hanging over Fred L. Mellette. Festerday a jury in the United States District Court gave the young man his freedom.

The crime with which Mellette was charged was allegred to have been committed at Santa Barbara in January, 1903. David Ellsworth, arrested at the same time, confessed his guilt and was sentenced to fifteen years in San Quentin. Mellette maintained his innocence. The evidence against the accused was all of a circumstantial nature and in the minds of the jury not sufficient to warrant serious conideration. On the contrary the fact was fully established that he had been employed by Ellsworth as a cobbler and was wholly ignoraft of the character of his employer's business. On this showing the jury acquitted the accused.

LUNCHEON AND SPEECHES.

At the sound of the bugie, as the last tree was planted, the company assembled at the house, where luncheon was served on the veranda. As the repast was finished a guest proposed the health of the host, to which Gen. Otls made feeling response.

He expressed the honor he felt had been bestowed upon him in the presence of these his neighbors and friends, and assured them of a most cordial welcome to what he saw fit to term his "simple hospitality." Gen. Otls then turned the vein of thought upon his ancestry, and quoted the following from the pen of James Clark Ridpath, the noted historian, in his forthcoming monograph on James Otls, "The Patriot," as he was called—the orator of the Revolution, who "set the colonies on fire with his eloquence," as John Adams declared, and whose dust lay in obscurity for more than half a century.

"Near the northeast corner of the old Common of Boston a section of ground was put apart long before the beginning of the eighteenth century to be a burying ground for some of the heroic dead of the city of the Puritans. For some quaint reason or caprice this sere of God was called: The Granary'—and is so called to this day. Perhaps the name was given because the dead were here garnered as grain from the reaping until the bins be opened at the last day's thrashling, when the chaff shall be driven from the west.

soldier. Col. Fife is as eloquent as the gentlemen who preceded him, and he declared before he gave expression to his thoughts that it was his theory to give justice to deserving men while they yet lived and could hear it from the lips. He spoke his admiration for the host, with whom he had served in the Philippines. Col. Fife was warmly applauded.

"Happy and fortunate is the people which recognizes its benefactors while yet they are alive, instead of waiting until their work is done to build them monuments. One of the most simple and impressive rites in the Temple of Nature is the planting of a tree, and it is altogether fitting that we should plant trees for one who has planted so many good seeds from which are springing abundant and continuing harvests, which we may share with those who shall come after us."

After referring at length to the service of Gen. Otis in three wars, Gen. Lagrange said:

"In the contest for industrial freedom he is always on the firing line. In that continuing contest he has taken ground for this community to which the State and the nation must come if they would escape the greatest peril that has threatened since the Civil Wag."

SCHOLASTIC PLANTING.

PUPILS OBSERVE THE DAY.
Pupils and teachers of the public schools yesterday observed Arbor Day.
At the Pico Heights school the pupils marched to music from their rooms to the front grounds, where a programme was rendered, in which among the numbers were: "Origin of Arbor Day," Frank-Maxson; "The Heart of a Tree," Bertha Van Gursling: "What Do We Plant?" three boys; violin solo, Walter Muilin; "Historic Trees," Jay Fisher: "Tree Planting," four girls, An address was delivered by G. M. Giffen, after which the presirent of the Child Study Circle read commendatory resolutions, indorsing the work of the teachers.

At the Twentieth-street school, under the principalship of J. P. Yoder, a programme was presented which included music by the G.A.R.; recitation, "Woodman, Spare That Tree "Roy Taylor; exercise, "Little Runaways," Miss Shrimplin's pupils; address, Superintendent Foshay; addresses by members Board of Education; concert recitation, "The Dear Little Tree," Miss Sayre's pupils, and planting of palm trees by first graduating class. The day was celebrated by Woodbury Business College with exercises in its new home, No. 809 South Hill street. Among the features were the reading of a poem by Miss Rae Gollober and addresses by Rev. G. A. Hough, former principal of the school, and by Prof. E. K. Isaacs, manager and president of the institution. The tree planting took place in the noon hour, and was witnessed and participated in by the student foody and friends.

At the Washington-street school the yard preparations were in charge of Guy Bteller. There were recitations and music by an orchestra composed of

YNCHER MAKES L FULL CONFESSION.

VILLIAM CLANCEY IMPLICATED IN MOJAVE CRIME.

Tells Story of Killing of Negro. Says Two Shots Were Fired—Cow-an in Letter to His Mother De-clares He is Innocent of the Crime. Date of Hearing Not Set.

(BY DIRECT WIRE TO THE TIMES! sive Dispatch.] Slowly but surely the links in the chain of evidence in the Mojave lynching case are being formed by officers. At the jail last night Wilby officers. At the jail last night William Clancey, one of the first to be
arrested upon suspicion of having been
implicated in the work of the mob,
made a complete confession to Sheriff
Kelley, telling of his connection with
the case and what transpired during
the affair -Friday night.
Clancey told much the same story as
the men who confessed to Dist.-Atty.
Laird at Mojave Tuesday evening. He
said that he, with others, had joined in Laird at Mojave Tuesday evening. He said that he, with others, had joined in the movement to subject the negro Cummings, to the indignity of a coat of oil and feathers. When the jail door was opened the victim of the lynchers came running out and made straight for the crowd in an angry and demonstrative manner. When he was a few feet from the prison Cowan fired a shot in the air, but when the negro continued advancing, a second shot was fired, and then Cummings attacked one of the crowd and a scuffile ensued. Clancey stated that he and others pulled the man off the prostrate victim and then the oil and feathers were applied and the body dragged back into the jail and the mob dispersed.

back into the jail and the mob dispersed.

In several letters which Cowan wrote to friends last night he stoutly declares his innocence. In a letter written to his mother, Mrs. R. Cowan, of St. Johns, Newfoundland, the son says:

"My Dear Mother: I have very sorrowful news to tell you. My streak of hard luck seems to have reached the limit. I am here charged with a crime of which I know absolutely nothing. I expect to be out, however, when my case comes up, but still the fact remains that I am in new. The crime is the lynching of a negro at Majove last Friday night. I swear before all I love and reverence, I know nothing of it. Pray for me.

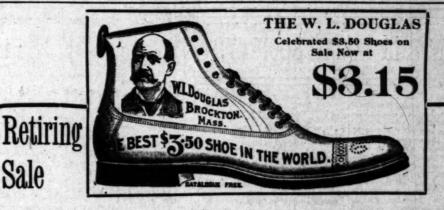

"Your loving son,

"JAMES COWAN."

In letters written to friends asking.

"Your loving son."

In letters written to friends asking them to contribute money for his defense, he relates the same facts, insisting that he is innocent, and that he is the victim of a conspiracy. When the District Attorney learned this morning of the confession of Clancey, he was somewhat surprised, and said:
"I have not had an interview with the men in jail, as I already have sufficient evidence."
The District Attorney also stated that some time this week the date for the examination of the witnesses at Mojave will be set. Mr. Laird will go to Mojave to conduct the examination.

TOOK A STRAW VOTE.

Interesting Experiment in a Restaurant.
An advertising agent, representing a prominent New York magazine, while on a recent Western trip, was dining one evening in a Pittsburgh restaurant.
While

While waiting for his order he glanced over his newspaper and notice I the advertisement of a well-

gaanced over his newspaper and notice! the advertisement of a well-known dyspepsia preparation, Stuart's Dyspepsia Tablets; as he himself was a regular user of the tablets, he began speculating as to how many of the other traveling men in the dining-room were also friends of the popular remedy for indigestion.

He says: "I counted twenty-three men at the tables and in the hotel office I took the trouble to interview and was surprised to learn that nine of the twenty-three made a practice of taking one or two of Stuart's Dyspepsia Tablets after each meal.

"One of them told me he had suffered so much from stomach trouble that at one time he had been obliged to quit the road, but since using Stuart's Dyspepsia Tablets had been entirely free from indigestion, but he continued their use, especially while traveling, on account of irregularity in meals and because like all traveling men he was often obliged to eat what he could get and not always what he wanted.

Another, who looked the picture of heaith, said he never ate a meal with-

what he could get and not always what he wanted.

Another, who looked the picture of health, said he never ate a meal without taking a Stuart Tablet afterward, because he could eat what he pleased and when he pleased, without fear of a sleepless night or any other trouble. "Still another used them because he was subject to gas on stomach, causing pressure on heart and lungs, shortness of breath and distress in chest, which he no longer experienced since using the tablets regularly. "Another claimed that Stuart's Dyspepsia Tablets was the only safe remedy he had ever found for sour stomach and acidity. He had formerly used common soda to relieve the troubie, but the tablets were much better and safer to use."

After smoking, drinking or other excesses which awaken the digestive organs, nothing restores the stomach to a healthy, wholesome condition so effectually as Stuart's Tablets, Stuart's Dyspepsia Tablets contain the natural digestive, pepsin, diastase, which every weak stomach lacks, as well as nux, hydrastin and yellow parilla, and can be safely relied on as a radical cure for every form of poor digestion. Sold by druggists everywhere.

Cane remains at 5.65. The difference of 20 cents between beet and cane sugar was made for purposes of introduction. The sale of beet sugar has reached enormous figures in the local market, and the public has been educated to the fact that it is as good as cane sugar for all purposes. The advance places beet sugar back in the position it has always occupied with relation to cane, and it is believed that sales will show no diminution on account of it.

LOANED SLICK YOUTH MONEY TO PAY UNDERTAKER'S BILL.

Now Wants San Bernardino riff to Bring Swindlers to tice-Female Friend of One of or Bell's Sons Arested Mex-1 Robbed and Beaton.

SAN BERNARDINO, 'March 17.dohn W. Cartwright of Chicago, has appealed to Sheriff Ralphs for the arrest of a clever gang of swindlers who fleeced him of \$75. Cartwright and his son were returning East from a stay in Los Angeles, and the latter learning that the Santa Fé Overland, upon which they were passedgra, would stop here fifteen minutes stepped off for a stroll. He was approached by a young fellow in black, who said that he, too, was going East on the hame train, accompanying the remains of his father. "They'll put the tasket into the baggage-car soon, said the stranger. Cartwright was called by his son and introduced to the young stranger, and while father and son were condoiling with him, another man approached and presented him with a bill for \$100, alleging it to sum to be due for undertaking expenses. The young man in a troubled voice, replied that he hadn't the cash sum to be due for undertaking ex-penses. The young man in a troubled voice, replied that he hadn't the cash and wanted the supposed undertaker to cash a check for \$1000. Of course this met with instant refusal, the al-leged undertaker exclaiming. "Well-young man, I am sorry for you, but I can't let that casket go unless I have may money."

tan't let that casket go unless I have my money."
The sider Cartwright had been listening eagerly, and spoke up saying that he would advance the youth the hecessary \$75 if the undertaker would accept that amount in settlement for his claim. After a weak refusal the undertaker closed the offer, and the youth insisted that Cartwright take the check for \$1000 as security for the loan. In the scramble to board the train, the youth was lost sight of, and later when looked for among the passengers could not be found. It then dawned upon Cartwright that he had been victimized. He met Sheriff Ralphs at Daggett and placed the matter in his hands.

ROHBED AND BEATEN.

ROBBED AND BEATEN. Manvel is greatly stirred over a fiendish highway robbery committed there. Three Mexicans who had been there. Three Mexicans who had been employed at the Sait Lake grading camps, eight miles distant, were lured to an isolated spot by several tough characters, who inhabit the sporting houses at Manvel, and attacked with clube, knives and pistols. One of them was shot through the hand and two others beaten insensible. The two fellows who were clubbed lay on the desert all night, and it was only when they were discovered next morning, unconsclous, and horribly disfigured, that the officers learned of the crime. Three of the assailants are under arrest. There is strong probability that the town will be cleaned of thugs by very drastic measures.

SANTA FE RETRENCHES.

SANTA FE RETRENCHES.

Santa Pé shop men are considerably stirred over an order issued at quitting time this evening, making the working hours from 8 a.m., to 5. p.m. According to the mechanics this is the first time since the shops were installed here that such an order has been operative. No explanation accompanied the order, and unionists declare the Santa Fé is violating its contract. The insinuation is made that the mechanics will refuse to accept the new conditions. Members of the Machinists' Union tonight, in explaining the reduction of 20 per cent. In working hours at the Santa Fé shops state that the company chose between the alternative of laying off 50 men or reducing hours. The laying off of the men would have been followed by a strike, and the company's SANTA FE RETRENCHES.

Waite, who has been representing a large orange-shipping firm in the East during the past winter, is home for a brief stay. He predicts that there will be no improvement in the orange situation until shippers quit sending the crop out of the country without orders and without a market. He further declares that eastern fruit brokers have it in for California fruit and that they are selling Cuba, Porto Rico and Florida oranges in preference. When he left St. Louis a few days ago he was astonished to find Floridas selling at \$3.50 per box, while the choicest Riverside navels were bringing only \$1.75.

HIGH SCHOOL CLASS RUSH.

SANTA ANA, March 17.—An exciting class rush was precipitated at the High School this evening by the action of the sophomore boys in flaunting a class banner and colors from the top of the belfry tower. Certain boys of the other classes were delegated by the faculty to remove the banner with the assistance of the janitor, but the task was one which required a long effort, as the banner had been securely wired and tied to the pinnacle of the building. In the meantime the boys of the sophomore class who had raised their emblems, assembled, and with the aid of ladders and fire escapes, scaled the school building from the rear and crept over the roof, prepared to rout the boys attempting to take down the flag, when the faculty interfered and prevented what might have been a dangerous struggle on top of the building. The colors were ultimately taken down and delivered to the faculty by one of the boys who scaled the tower and cut them loose.

#### FULLERTON.

LICENSE TAKEN OFF. .
FULLERTON, March 17.—The City Trustees have decided that any fruit association shipping its own product will not have to pay a city license here to conduct its packing-house. This question was brought before the board for consideration when the Placentia Crange Growers' Association wrote that it did not want to pay a license because it was shipping only oranges produced by its members. The City Marshal reported that Attorney Davis had refused to pay a city license, claiming that his State license permitted him to practice anywhere in California. The Trustees instructed City Attorney Marks to draw up two advertisements for bids for the sale of two separate franchises for gas and electric light privileges in the city. Ordinance No. 17, providing for a Board of Health and defining its duties, passed its first reading.

For some time the dead of Fullerton have been buried in the Anahelm Cemetery. A movement is now under way to purchase a site somewhere in the hills, suitable for cemetery purposes, and it is believed the deal will be carried through successfully by a joint stock company that is now talked of. Citizens of this place have used the Anahelm Cemetery as a burial ground for over fifteen years, although a number of bodies have been buried on private property in Fullerton, with the hope that some day in the near future Fullerton would have its own cemetry.

Espes Making Extensive Changes

ISPECIAL CORRESPONDENCE OF THE TIMES.

VENTURA, March 17.—Justice of the Peace Guiberson of Camulos township, that was, declines to be legislated out of office and is still holding forth and dispensing justice at the old stand in the northeastern end of the county, though the township which he was elected to represent is no longer in existence. The affairs of the township were costing the county something like \$400 per month and the Supervisors concluded that this was considerable outlay for the smallest township in the county, and to solve the problem did away with the balliwick and at the same time tacked it onto Santa Paula township. Justice of the Peace Guiberson and Constable Trotter were supposed to have died officially with the demise of their township, but this does not seem to be the case so far as Guiberson is concerned. He does not propose to be dropped without his consent and has retained attorneys Toland & Rogers to fight the matter out in the courts. (SPECIAL CORRESPONDENCE OF THE TIMES.)

CHANGES AT MONTALVO. CHANGES AT MONTALVO.

The Southern Pacific is making extensive changes at Montalvo, this county, preparatory to opening its Chatsworth line on Sunday next. Montalvo is four miles east of this city, and is the function where the new road through the new tunnel will branch from the old. The Montalvo depot is being moved about a quarter of a mile to the westward, where the new road branches off. This will make it convenient to both roads—the main, and also that running by Santa Paula to Saugas. Montalvo will be a rather more important point in the future than heretofore and extensive work in the shape of yards and switches is being put in. It is near this point, also, that

the Chatsworth line crosses the Santa Clara River, and the trestle there has been strengthened and filled and made ready to accommodate the heavy and fast trains which will be pushed through the new tunnel route. WAR ON SLOT MACHINES.

BRYAN LIKE THIRTY CENTS.

A fine picture of William J. Bryan has actually been appraised in the records of Ventura county as worth but 30 cents—frame and all. Today was filed by Attorney Clarke the inventory and appraisement of the estate of the late Martin Coffman, deceased, of Santa Paula. The estate was appraised by Dr. D. W. Mott and Edwin Virden, one a leading physician and the other a foremost druggist of Santa Paula. The value of the estate was found to be about \$400. It consists of a little real estate and some household furniture. Included in the latter is "one picture of William J. Bryan." The price of this treasure is placed at just 30 cents.

SANTA BARBARA TRANSFER COM-PANY OFFICIAL MISSING.

pearance to Domestic Complica-tions Involving Two Wives—Form-erly Known as Kennedy in Freeno. Camino Real Convention in April.

SANTA BARBARA, March 17.—W. H. Hays, for several months past sec-retary and manager of the Santa Barretary and manager of the Santa Barbara Transfer Company, is missing and
speculation as to the cause of his prolonged absence has set affoat several
queer stories, any of which if true
might explain his summary departure
from Santa Barbara. Hays has been
absent since Saturday last, on which
day he announced that he was going
to Los Angeles on company business.
Since that date he has falled to show
up at his office and no traces of his
whereabouts have been found. The rumor that he made away with funds belonging to the company is unfounded.
It is common report, however, that
Hays lived far beyond his means and
was heavily in debt.

One of the rumors afloat yesterday
attributed Hays's disappearance to domestic troubles in which two wives
figured. It is alleged that at one time
he lived in Fresno where he was in the
theatrical business under the name of
Kennedy. He is said to have left the

Kennedy. He is said to have left the raisin town leaving lots of debts and a wife. He came here with a woman whom he introduced as his wife, but if he is the man known in Fresno as Kennedy, she is not the wife he left there, as "Mrs. Kennedy" is said to be in Fresno at the present time. Hays's wife left here for the East about a week ago, and the general opinion is that he has followed her. A search of the rooms occupied by him showed that he has followed her. A search of the rooms occupied by him showed that he had taken away all his belongings before leaving.

I have a cure in every town. Tell me where you live and I will give you the name of a man I've cured.

I want to talk to men who have pains and aches; who feel run down physically, and who realize that the old "fire" and energy which was so evident in youth is absent now; men who can't stand the amount of exertion they could years ago. I want you-if that means you—to come to me, and if I say that I can cure you I don't ask you to pay me until I DO so. That is fair, surely. You take no chances, as I know what I can do, and I'll run the risk.

PLANS FOR PAVILION.

PLATA DEL REY, March 17.—
Cook's new \$15,000 hotel here is fast approaching completion. The roof is on and the painters and plasterers are at work. The building has forty-two rooms. It stands on the sands between the ocean and the lagoon. Boats will land at the porch.

The architects have completed plans for the pavilion. This also will be located on the sand spit between the lagoon and the sea, and work on it will be commenced within a few days. The pavilion and amphitheater, 1602200 feet, will slope from the still water of the lagoon to the open surf. The two structures will have a Japanese effect. The first floor will be devoted to cafe and kitchen, with four store rooms. The auditorium will be in the second floor, and will be entirely surrounded by a balcony.

LONG BEACH, March 17.-Tw

LONG BEACH, March 17.—Two young men named Bourbannais had a narrow escape this morning from death by asphyxiation. They arrived yesterday from Salat Polycarpe, Conte Soulange, Quebed secured rooms at the Richmond Hotel. Both went to bed early. About 2 o'clock this morning a roomer named Ogden was awakened by the odor of escaping gas and strange sounds from an adjoining room. Efforts to arouse the inmates were unavailing, and the door was forced open. The room was filled with fumes of gas escaping from a half-turned jet, and the Bourbannais brothers lay unconscious on the bed. Dr. J. W. Wood was hastily summoned, and after two hours' work succeeded in restoring the victims to consciousness. Both are very sick today, but out of danger. They deny blowing out the gas, and it is though that when they turned the cock partially on again. The fact that the transom was open a few inches, alloying the escape of some of the gas, is all that saved their lives.
